

LASER/INKJET/COPY LABELS

More grammage with the label paper and less with the back paper: the newest development in the label-business.

We use the **grade 70/55** - other label-producer having still the **grade 60/60**.

Label paper 70 g/m² label paper is thicker, therefore more body; no curling after peeling off from backing paper

Backing paper 55 g/m² backing paper is thinner and got a new coating, to have an even more smooth release of the label from the backing paper.

New permanent glue gives you a permanent sticking of the label on the surface but also a smooth release from the backing paper

The **pauli** label paper is **T.C.F. = total chloride free bleached**, but in addition also **bright white**.

The **pauli** labels are universal Labels and can be used with **all Laser Printers, Inkjet Printers and Copiers**.

Packing: Box of 100 Sheets

To keep the high quality of the **pauli** Label we created the **dual packing**.

The 100 sheets are in a poly-bag - *protection against humidity and dust* - and then in the **colourful pauli box** which is again cellophane-shirked - *better presentation, protection against dust and dirt on the shelf* -.

10 **pauli** boxes are in a strong master-carton - *excellent protection by handling* -.

The **Stock-sizes** are **36 with straight corners** and **23 with rounded corners**. We cover all current label sizes.

Packing: Pack of 20 Sheets

The **Pack/20** is a durable hanger-pocket made out of environment friendly Polypropylene. This multi-useable and closable packing for the 20 sheets gives *protection against humidity and dust*.

10 **Pack/20** are in a strong master-carton - *excellent protection by handling* -.

From the **Stock-sizes** are **15 with straight corners** and **9 with rounded corners** available in the **PACK/20**. This packing is specially designed for the SOHO-market, for users with small consumption.

For users with big consumption we have the **Box of 200 Sheets** and the **Box of 500 Sheets (Industrial Pack)**.
